

INFORMATION KIT FOR 2015 GENERAL ELECTIONS

FOREWARD

The Independent National Electoral Commission (INEC) has come a long way since 2011 in making the Nigerian electoral process transparent, as a way of ensuring that elections are free, fair and credible and that they measure up to global best standards of democratic elections. We have done this not only by reforms that have been in the electoral procedures, but also in the way information on the process is made available for public use and awareness.

Even though the yearnings of many Nigerians for a perfect electoral process may not have been fulfilled yet, our reforms since 2011 has ensured incremental improvement in the quality and credibility of elections that have been conducted. Beginning with some of the Governorship elections conducted by INEC since 2013, the Commission began to articulate Information Kits for the enlightenment of the public, especially election observers and journalists who may need some background information in order to follow and adequately understand the electoral process.

With the 2015 General Elections scheduled to take place nationwide, this document is unique, in that it brings together electoral information about all the 36 states and the Federal Capital Territory (FCT). I am optimistic that this kit will contribute to the body of knowledge about the Nigerian electoral system and enhance the transparency of the 2015 elections.

AKNOWLEDGEMENT

A compilation of this sort cannot but be a product of the entire organisation's collective effort: the Commission, led by Hon. Chairman, who gave approval for project execution; the Resident Electoral Commissioners (RECs) who activated the process of providing the required information from their respective jurisdiction; and the Administrative Secretaries who provided the responses to the national headquarters. The need to make an information package like this compendium available to the public is a commitment mutually shared within the Commission, and which all worked hard to deliver.

A major credit for the compilation goes to Princess Hamman-Obels who worked the phones relentlessly to get INEC states offices to provide their input in the specific form required, and who worked the computers for long hours to format the content. Credit also goes to Chinwe Ogbuka who re-worked the histories of the states and the FCT into compact forms suitable for this compilation.

INTRODUCTION

Information is necessary for efficient functioning in every sphere of human endeavour. For the Nigerian electoral system, and the 2015 General Elections in particular, some basic information can be helpful in understanding and interpreting the processes, as well as in connecting with various stakeholders in election management. This compendium is designed to provide such basic information.

The Information Kit is a user-friendly compilation of electoral information about the 36 states and the Federal Capital Territory where the 2015 elections will be conducted. The document will provide the user an overview of basic statistics about the electoral features of each state, the election managers and their contact lines, as well as representatives security agencies on the platform of ICCES and their contact lines. These bits of information will be useful for anyone wishing to follow and understand the polling process. It is hoped that voters, media professionals and election observers, among others, will find the kit handy in understanding the processes of the general election.

AKWA IBOM

BRIEF HISTORY

Akwa Ibom is one of the six states that make up the south-south geopolitical zone of Nigeria. It was created on the 23rd of September, 1987 out of the former Cross River State. It has inter-state boundaries with Cross River to the east, Abia to the north and north-west and Rivers to the southwest. To the south is the Gulf of Guinea.

The state capital is Uyo. Other major towns include Ikot Ekpene, Abak, Eket, Ikot Abasi, and Oron. The state has 31 Local Government Areas; 326 Registration Areas and 2, 982 Polling Units.

The state covers a land area of 8,412 square kilometres and has a population of 3,902,051 (2006 census), accounting for 2.8% of Nigeria's total population. Its 129 km coastline is the longest in the country and a very rich source for a wide variety of fishes and sea foods. It plays host to some multinational companies like Mobil Producing Nigeria Limited. It is also home of the Aluminium Smelter Company (ALSCON). Currently, Akwa Ibom State is the highest oil and gas producing state in Nigeria and is blessed with other mineral resources such as clay, glass, sand, granite, kaolin, limestone and lignite.

The people of Akwa Ibom are culturally homogenous, with a common identity and linguistic heritage. The three major groups are Ibibio, Annang, and Oron, and the main language, Ibibio, is widely understood throughout the state, despite slight dialectical variations.

ANAMBRA

BRIEF HISTORY

Anambra State is in the south-east geopolitical zone of Nigeria. The old Anambra state was created in 1976 when the then East Central State was divided into Anambra and Imo states. Following the August 1991 states creation exercise, Enugu State and Abakaliki (in Ebonyi State) was excised; leaving Anambra State as presently constituted, with Awka as its capital. It shares boundaries with Kogi State to the north, Enugu State to the east, Imo, Abia and Rivers states to the south, and Delta and Edo state to the west. The people of Anambra State are Igbo.

The state has a total land area of 4,416 sq. km spreading across 21 Local Government Areas (LGAs). Apart from Awka, the state capital, some other major towns are Onitsha, Nnewi, Obosi, Ihiala, Aguata, Oko, Uli, Ojoto, Abagana, Nkpor, Ogidi, Okija, Awkuzu, Umuleri and Aguleri. Anambra State falls within the south-east geopolitical zone of Nigeria. It has a population of about four million, one hundred and seventy-seven thousand, eight hundred and twenty-eight (4,177,828) based on the 2004 National Census. The state has the following electoral statistical information: (i) 21 Local Government Areas (LGAs); (ii) 326 Registration Areas (RAs); (iii) 3 Senatorial Districts; (iv) 11 Federal Constituencies; and (v) 33 State Constituencies.

CROSS RIVER

BRIEF HISTORY

Cross River State, which lies in the southeastern axis of Nigeria, was created on May 27, 1967. It is located on latitudes 4°30' and 7°00'N, and longitudes 7°50' and 9°28'E. The state shares common borders with Akwa Ibom, Abia and Ebonyi states to the west, Benue State to the north, Republic of Cameroon to the east, and the Atlantic Ocean to the south. The state is part of the Niger Delta region, occupying an area of about 20,156km². Its headquarters is located in the ancient city of Calabar.

The old Calabar served as a center of learning, as well as headquarters of several British parastatals during the colonial period. It was also the first capital of Southern Niger.

The 2006 National Population Census puts the population of the state at about 2.8m people. The most prominent ethnic groups are Efik, Bekwarra and Ejagham. The state is divided into eighteen (18) Local Government Areas (LGAs). Besides Calabar, the state capital, other major towns in the state include Akamkpa, Ikom Obubra, Odukpani, Ogoja, Okundi, Ugep, Obudu, Obanliku and Akpabuyo

DELTA

BRIEF HISTORY

Delta State was excised from the former Bendel State in 1991. It is one of the major oil producing states in the Niger Delta region of Nigeria. The state is bounded on the north by Edo State, on the east by Anambra and Rivers states, on the south by Bayelsa State and on the west by Ondo State and the Bright of Benin of the Atlantic Ocean. It lies within Latitudes 5⁰ 00' and 6⁰30'N and Longitudes 5⁰00' and 6⁰45'E. it covers an area of approximately 17,698 Square Kilometers. The 2006 population census puts the population of the state at about 4.09M people.

The state has 25 Local Government Areas (LGAs), and the state capital is Asaba. Besides Asaba, other important towns in the state include the commercial city of Warri, Sapele, Ughelli, Oghara, Agbor, Koko, Ogwashi-ukwu, Burutu, Ozoro and Okpanam. The state's population comprises many ethnic groups. The major ethnic groups are Igbo, Itsekiri, Urhobo, Ijaw and Isoko. Apart from petroleum and natural gas, which are the major mineral resources of the state, other mineral deposits are kaolin, laterite, clay, gravel, silica sand, bauxite and granite. Although petroleum is almost the sole source of revenue to the state government, indigenes of Delta state mostly engage in agriculture and fishing.

IMO

BRIEF HISTORY

Imo State was created in February 1976. It derives its name from Imo River which currently forms a natural boundary between the state and Abia State that was carved out from it in 1991.

Imo State has an estimated area of 5,156.6 sq.kilometres. The state has 27 LGAs and is culturally homogeneous, with the inhabitants being largely Igbo. The major language is Igbo although the official language is English.

With population density ranging between 200-1500 persons per square kilometer, there is much pressure on the land. Land therefore is a very sensitive issue in the cultural heritage of the Igbo people. The population is almost evenly distributed across the state, and family compound setting is very important and strong. The major nucleated settlements in the state include Owerri, Okigwe and Orlu. Owerri is the capital, and attracts many people from all over the state that still retain their indigenous home affiliation.

KADUNA

BRIEF HISTORY

Kaduna State was part of the former North – Central State, which was created in 1967 when Nigeria changed from four (4) Regional system to 19 state structure. In 1987, it was divided into two along the line of the old provincial boundary, thus Katsina province became Katsina State, while Zaria province formed the present Kaduna State.

The state capital is Kaduna – a status it has enjoyed since the old Northern Region days. There are twenty three (23) Local Government Areas in the state, and it covers an area of 44,408.3 square kilometers. The population according to 2006 census is 6,066,562, which then put the density at about 137 persons per square kilometer.

Kaduna State is a major industrial axis in the North, while Kaduna town has a lot of commercial activities and industries like the Peugeot car assembly and the petroleum refinery. Few textile industries still exist. The state has an airport, which is accessible all year round because of fair weather. It is also a major railway junction for the entire railway system between the North and the South.

KANO

BRIEF HISTORY

Kano was among the 12 states created in May 1967 out of the former Northern Region. The state remained intact until August 27, 1991 when Jigawa State was carved out of it. It is located in the northwest geo-political zone of Nigeria. Hausa and Fulani, who are predominantly Muslims, inhabit Kano State.

Kano State is one of the largest states in Nigeria in terms of population, having a population of about 9,383,682 in the 2006 census. It has 44 local governments, with an area of 20,479.6 square kilometers. The population density is about 458 persons per square kilometer. The walled city of Kano, which serves as the state capital, is the commercial nerve centre of Kano State and indeed the whole of northern Nigeria. Many immigrants, mainly Yoruba and Igbo, live in Kano City. Six local government areas (Fagge, Gwale, Tarauni, Kano Municipal, Nassarawa and Dala) have virtually merged into what a visitor would call Kano metropolis.

The official language of Kano State is Hausa, but English language is commonly spoken as the country's official language. Most natives can also read Arabic literature.

Historically, Kano State has been a commercial and agricultural state, which is known for the production of groundnuts. The state has over 18, 684 square kilometres of cultivable land and it is the most extensively irrigated state in Nigeria. Kano State is noted for its famous markets and it is the most leading industrial centre in the north. Trading articles in the Kano City include leather goods, local crafts, dyed textile materials as well as camels. Giant industrial plants include textile, oil, motor assembly, bicycle assembly and many agro -based industries. Kano City is linked by rail, road, and air to all parts of the country and internationally.

KOGI

BRIEF HISTORY

Kogi State, with a land area of 29,833 square kilometres, was carved out of Kwara and Benue states on August 27, 1991. Kogi is one of the states in the north-central zone of Nigeria. It is popularly called the confluence state due to the fact that the confluence of Rivers Niger and Benue occur there. There are three main ethnic groups in the state namely Igala, Ebira, and Okun; with the Igalas being the largest ethnic group. Lokoja is the state capital.

Kogi State, with a population of 3,314,043 according to 2006 census, is the most centrally located of all the states of the federation. It shares common boundaries with Niger, Kwara and Nasarawa states as well as the Federal Capital Territory (FCT) to the north Benue and Enugu states to the East; Enugu and Anambra states to the south; and to the west by Ondo, Ekiti and Edo states.

The state has important tourist attractions which include colonial relics such as Lord Lugard House and Ogidi (an African town with formations of Igneous Rock Mountains and a traditional art & craft industry).
